We are proud to introduce you to a Communion headpiece and veil collection specializing in custom, tailor-made designs. Anja's Dream is a division of Boutique de Voile, Inc., a creator of bridal veils and hair jewelry for couture bridal salons. Anja's Dream answers the demand of customers who want more variety in children's special occasion accessories. So very often, parents find the same Communion wreath and standard veil with no allowance for color, size or design. Yet, Anja's Dream makes products that are both made well and tailored to each child. With craftsmanship simply impossible to achieve in mass-produced pieces, we let the retailer and their customer become a creative participant. They may choose veil color, size, sewn-edge and optional adornments such as Swarovski crystals, pearls, tiny rhinestones or custom bows to match their dress — like the raw silk dresses that so many girls are wearing. For this reason, we have designed more headpieces comprised of diamond white and light ivory components with the option of attaching a matching veil. So whether your customer chooses a traditional white gown or a couture raw silk gown, we guarantee that they will exude an individual style with handmade accessories — and have the Communion they deserve.

The bridal and communion industry are trying desperately to navigate through the unexpected turmoil that tariffs bring to the table. Beaded edge veils and metal headpieces may sell out faster, as we will holding smaller quantities.

We still have more than 55 styles to choose from! We wish you all a prosperous season.

We are always CPSIA compliant
